

LEARNING TARGET:

Be able to determine **WHEN** and **HOW** to create in text () parenthetical citations for a research paper.

FOR LITERARY PAPERS CITATIONS ARE ONLY NEEDED FOR MATERIAL THAT IS DIRECTLY QUOTED FROM A SOURCE.

- ✘ Why do we need to cite even **PARAPHRASED** information for a **RESEARCH** paper?
- ✘ Do you need an in text citation () after every sentence?
- ✘ Can an in text citation () refer back through a **paragraph** if you got all of the info from the same source?
- ✘ Can an in text citation () refer back through multiple paragraphs if you got all of the information all from one source?

HOW DO YOU DO IN TEXT CITATIONS FOR RESEARCH PAPERS?

- ✘ In text citations for literary papers are easy because we just put the author's last name and page #.
- ✘ Many research sources have publishing organizations and not authors so how do we need to know what to put in the in text () parenthetical citation.

Performance of Understanding

What do you put in the () citations?

ANSWER: Whatever comes **FIRST** on the Works Cited Page:

CHECK FOR UNDERSTANDING Instructions:

Create **FOUR** () citations one for **EACH** source listed on the sample Works Cited sheet on the next slide.

IF the citations start out the same, you need to add additional info from the source to clarify which source your info came from. Let's practice together 😊
