## CITATION MACHINE

Serving Students & Teachers

### **MAYBE YOUR WORLD CULTURES TEXTBOOK**

Citation Machine is an interactive web tool designed to assist **high school, college, and university students**, their teachers, and independent researchers in their effort to respect other people's intellectual properties. To use Citation Machine, simply...

1. Click the citation format you need and then the type of resource you wish to cite,
2. Complete the Web form that appears with information from your source, and
3. Click **Make Citations** to generate standard bibliographic and in-text citations.

The primary goal of this tool is to make it so easy for **high school, college, and university students** and other researchers to credit information sources, there is virtually no reason not to -- because **SOMEDAY THE INFORMATION THAT SOMEONE WANTS TO USE, WILL BE YOURS.**

Warning: There are many nuances to how citations are formed, and this software may not pick up all of the circumstances that influence a citation's proper format. Because of the myriad of characteristics in information sources, Neither David Warlick, nor The Landmark Project, can fully guarantee the accuracy of citations generated by this tool.

If you have questions about the proper citation of these or other source types, consult with your local copy of:

- ♦ [MLA Handbook for Writers of Research Papers: 6th Edition](#) or
- ♦ [Publication Manual of the American Psychological Association: 5th Edition.](#)

There will be copies in your school or public libraries.

**ENCYCLOPEDIA BRITANNICA OR WORLD BOOK ONLINE (WORLD BOOK ONLINE DOES THE CITATION FOR YOU IF YOU LOOK FOR IT!!)**

**THIS WOULD BE FOR SOMETHING YOU FOUND AT EBSCOHOST.**

**WEBSITE (WHEN YOU FILL THIS ONE OUT. SKIP WHAT YOU CAN'T FIND.)**

# Tips

## Click on MLA

You make a Works Cited entry for each resource you'll think you'll use.

Once you've filled out each box the best you can, click SUBMIT and your citation will be processed for you. Copy and paste that into an email and send it to whoever is making the master works cited page.

Whoever makes the master works cited page must put them in

- **alphabetical order** (based on the first word of the entry)
- **indent the 2<sup>nd</sup> line (or more) of each entry (if there is a 2<sup>nd</sup> line)**
- **double space**
- **label it Works Cited or Work Cited (if there is only one source) -- NOT sources, bibliography, etc.**

Here's what the master works cited page might look like for your group:

### Works Cited
