

September 8, 2020

Dear Seymour Community School District Families,

This year is very unique in that we realize students who are attending in-person instruction may need to be absent for extended times due to COVID-19 quarantines. We plan to treat these absences in accordance with other extended absence situations such as surgery, illnesses or pre-arranged absences which may include vacations, family trips, etc.

For individual student extended absences due to quarantine, classroom teachers will work with families to provide homework and instructional materials throughout the quarantine period. In some cases, ipads, chromebooks, and other classroom materials, may need to be picked up at a designated pick up location.

For full class quarantines we will be using our Learning Management Systems: Seesaw (grades 4K-5) or Google Classroom (grades 6-12). If there is a need for your child or your child's class to be quarantined, we will communicate further procedures with you.

Please log into your child's classroom in Seesaw or Google Classroom this week and continue to check it weekly. If you need help, please contact your child's teacher.

If you have any questions, please contact your building level principal or associate principal about extended absences.

Sincerely,

Laurie Asher
Superintendent
