The State of Wisconsin encourages parents of Kindergartners to arrange for their child's eyes to be examined by an optometrist or evaluated by a physician by December 31 of the child's first year in school. An examination or evaluation should include, at a minimum, the elements listed below. (By checking the box, the examining doctor is indicating that the element checked was performed.)

Brief history (general health and eye health) of the child, including family history

General external observation of the child's eyes and surrounding structures

Ophthalmoscopic examination through an undilated pupil

Gross measurement of peripheral vision

Evaluation of eye coordination and function (alignment and motility)

Visual acuity for each eye (separately)

**Findings** 

As a result of this examination, follow-up care for the child is recommended:
