Power, a detestable rebellion, and betrayal lead to be a perfect concoction for George Orwell's hope filled creatures in *Animal Farm*. The fearful tragedy could have been avoided if dictatorship and inhumaneness did not occur. You deserve to be treated fairly. Although Napoleon and the pigs are ultimately responsible for the farm's wrongdoing, it was the animals on the farm which allowed the fire to spread which ensured the pig's future corruption. I believe that Squealer with his persuasive speeches and glittering explanations, pushed the farm away from "Animalism" and towards Fascism.
